

Strong work ethic – personal accountability – teamwork – balance of work and personal life. These are just a few of the ethos that make Ravatt, Albrecht & Associates (RA) who we are. Our workspaces are open office environments, designed to facilitate collaboration and teamwork. You won't find doors or offices – we have an open door policy for both clients and staff. Our team members are committed to the highest levels of performance, ensuring our clients achieve their goals. We help them see their visions – on paper, by building models or creating 3D renderings/modeling, and finally, in built form.

RA is a multi-disciplinary design firm providing architecture and engineering services for a wide range of Federal, State, County, City and Public Works projects throughout California. RA has specialized in Design-Build collaboration since the founding of our firm. Our firm currently has two offices in Santa Maria and San Luis Obispo, California.

Job Summary

A full-time position is available for Senior Architect. RA is seeking a person(s) to blend their talents and architectural expertise with our team of architects, engineers and partner contractors. A Senior Architect will blend design and construction teams, develop design-build basis for design, oversee design-build proposals, and manage construction in collaboration with a design-build contractor. Project involvement is from proposal preparation and design to construction completion. Design-build projects include Federal, County and K-12 clients.
